

# PHP Developer - Drupal (m/f/d)

**Location: Hemel Hempstead, United Kingdom | Fulltime**

## Your Challenge

You will play a key role in the ongoing development of our software products, help maintain the highest quality and security standards, design new services and enhance existing ones and generally get to work on cutting edge systems development for the future of our urban environments.

- Developer for EV back office and 3rd party integration
- Support in customer meetings for Commercial and Projects on technical ability and innovation
- Work closely with the Hardware Solutions team on joint roadmaps.
- Monitoring the uptime of the back office and the server hosting the system and investigating issues
- Work with internal stakeholders to identify new requirements and estimate development required
- Work with SaaS (Software as a Service) customers to identify requirements and launch their white labelled systems
- Organisation and management of OCPP testing for new, third-party manufacturers
- OCPP & OCPi development
- Development support for contactless payment systems

## Your Profile

- Experience writing PHP to build additional functionality in Drupal, deploying changes and managing Drupal environments.
- Experience in database design, writing SQL queries and optimisation techniques (MySQL/MariaDB in particular)
- Strong familiarity with object oriented design patterns
- Knowledge and experience of unit and integration testing
- Knowledge and experience of system design
- API design and development experience with focus on REST principles
- Ability and proven experience integrating with a variety of external third party services
- Ability to estimate technical effort required to design and implement new functionality
- Able to debug and fix complex issues
- Ability to work on large codebases with minimal documentation
- Git Version Control
- Familiarity with front end Javascript
- Experience using Linux (desktop / server admin)
- Experience with cloud hosting environments, including AWS, Azure and Linode
- Self-sufficiency: initiative, time management, multi-tasking

## Your Benefit

£Highly competitive, Pension, Holiday, Life Assurance
