Traffic signs

Lines, arrows, pictograms, letters, numbers: Preformed markings keep traffic flowing by providing rapid, clear directions. They increase safety levels and make driving easier for all road users.

Placing conventional traffic signs on the road as preformed markings puts them directly in the driver's line of sight and makes them impossible to overlook. Reflective glass beads make them much more visible in all light and weather conditions.

Special symbols and customized logos

From special symbols to customized logos: Preformed markings come in many different shapes and colors and are also eye-catching features away from the road. Put your unique mark on your town square, company site or property.

Playground and schoolyard markings

Learning, playing and having fun: Bright preformed markings in schoolyards and playgrounds inspire children to interact with each other and let their imaginations soar. Whatever you create – whether it's a letter maze, a number snake, a huge compass or rocket to the moon – it's guaranteed to make learning fun.

The colorful world of EUROTHERM – preformed markings.

We have a broad spectrum of standard colors. But don't worry if you need a special hue, we're always happy to advise you.

LIFE IS COLORFUL

Just like a playground,
schoolyard or road:
EUROTHERM brightens
up everyday life and also
helps make it safer and
more fun.

SWARCO | The Better Way. Every Day.

SHOWING THE WAY, WORLDWIDE

In 1969 we started out with the manufacture of tiny reflective glass beads. Today we have grown into the world's largest systems provider for road markings. Making roads safer and saving lives on a daily basis. Our high quality products and services, safely direct traffic flow from A to B, every day and night. On all roads, in any weather, and all from SWARCO.

We prepare for the future, by fusing knowledge with innovation at our Competence Center for Glass Technology and Marking Systems. So, even with smart and autonomous driving, we continue to blaze the trail of premium road markings to the world. Jump in and drive with us; we will be happy to help you find your ideal road marking solutions.
