MORE SAFETY, MORE FUN

Playgrounds are an essential part of every community and children spend countless hours of the day having fun with what the playground has to offer. Why not utilize this time for children to acquire basic skills in playful ways?

EUROTHERM preformed thermoplastic playground markings make learning fun! They are great additions to playgrounds at schools, churches, daycares, community centers and parks. With the vibrant colours used in playground markings, children are motivated to enter into activities and become involved in purposeful play increasing motor skills, all while cutting down on playground confrontation.

EUROTHERM PLAYGROUND MARKINGS

Life is colorful

Just like a playground,
schoolyard or road:
EUROTHERM
playground markings
brighten up everyday life
and make it safer and
more fun.

- Available in 3 mm thickness
- Ready to install out of the box

Crystal-clear advantages

- Tailored precisely to individual customer requirements
- Quickly and easily installed, no specialized equipment required
- Environmentally friendly with zero VOCs and heavy-metal-free pigments
- Can be installed at lower temperatures, extending installation season
- Skid resistance certificate available upon request

Visibly better

- Standard colours include white, yellow, blue, black, red, green, purple & orange
- Custom colour matching available

Noticeably more cost-effective

- Durable long-term performance provides for an economical investment
- Lasts 8 to 10 times longer than paint

LIFE IS COLORFUL AND SO IS OUR PORTFOLIO

Learning, playing and having fun: Bright preformed markings in schoolyards and playgrounds inspire children to interact with each other and let their imaginations soar. Whatever you create – whether it's a letter maze, a number snake, a huge compass or a rocket to the moon – it's guaranteed to make learning fun.

LIFE IS FUN!

Obstacle courses encourage kids to problem-solve, requiring lots of physical movement which is crucial for childhood development.

ON YOUR MARKS, GET SET, GO!

The area to be marked must be clean, completely dry and free of dust and oil. Draw the outline in chalk.

If it is cool and moist, pre-heat (thoroughly dry) the substrate. If necessary, apply primer and let it flash off.

Use a gas torch to heat the entire surface of the EUROTHERM preformed thermoplastic playground marking until it starts to bubble.

EUROTHERM preformed thermoplastic markings are easy and quick to apply

EUROTHERM preformed thermoplastic playground markings provide customers with the durable quality of thermoplastic pavement markings without requiring expensive equipment for installation. Our preformed thermoplastic markings are pre-cut into lines, legends, symbols and shapes, ready to install out of the box with a gas torch.

“It’s a different way of learning. Even our preschoolers enthusiastically jump on the hundred field. Our schoolyard has been transformed into a colourful space for learning and playing. A space where everyone feels happy.”

STEFAN BEETH
ELEMENTARY SCHOOL TEACHER

SWARCO | The Better Way. Every Day.

SHOWING THE WAY, WORLDWIDE

In 1969 we started out with the manufacture of tiny reflective glass beads. Today we have grown into the world's largest systems provider for road markings, making roads safer and saving lives on a daily basis. Our high quality products and services, safely direct traffic flow from A to B, every day and night. On all roads, in any weather, and all from SWARCO.

We prepare for the future by fusing knowledge with innovation at our Competence Center for Glass Technology and Marking Systems. So, even with smart and autonomous driving, we continue to blaze the trail of premium road markings to the world. Jump in and drive with us; we will be happy to help you find your ideal road marking solutions.
