

## Crushed Grinding wheels SSB

Version number: GHS 1.0

Date of compilation: 2014.11.15

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

Trade name **Crushed Grinding wheels SSB**

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Relevant identified uses** fine blasting medium

#### 1.3 Details of the manufacturer/supplier of the safety data sheet

SWARCO-Vestglas  
Vestische Strahl- und Reflexglas GmbH  
Rumplerstraße 12  
D-45659 Recklinghausen  
Germany

Telephone: +49 (0)2361-6094-0  
Telefax: +49 (0)2361-32167  
e-mail: office.vestglas@swarco.com  
Website: www.swarco.com

e-mail (competent person) **thomas.rosenthal@swarco.com**

#### 1.4 Emergency telephone number

Emergency information service **+49 (0)2361/6094-0**  
This number is only available during the following office hours:  
Mon-Thu: 7 a.m. - 4 p.m., Fri: 7 a.m - 11 a.m.

### SECTION 2: Hazards identification

#### 2.1 Classification of the substance or mixture

##### **Classification according to Regulation (EC) No 1272/2008 (CLP)**

This mixture does not meet the criteria for classification in accordance with Regulation No 1272/2008/EC.

##### **Classification according to Directive 1999/45/EC (DPD)**

This mixture does not meet the criteria for classification in accordance with Directive 1999/45/EC.

##### **The most important adverse physicochemical, human health and environmental effects**

Repeated inhalation of large amounts of dust over a long period of time increases the risk of developing lung diseases. The product enters directly through the oral or nasal cavity.

#### 2.2 Label elements

##### **Labelling according to Regulation (EC) No 1272/2008 (CLP)**

not required

#### 2.3 Other hazards

Dust can cause irritation to the cornea and conjunctiva. Causes mild skin irritation. Localised redness, oedema, pruritis and/or pain. Inhalation of dust may cause respiratory irritation.

## Crushed Grinding wheels SSB

Version number: GHS 1.0

Date of compilation: 2014.11.15

### SECTION 3: Composition/information on ingredients

#### 3.2 Mixtures

**Composition/information on ingredients** Mixture of normal and precious corundum  
Al<sub>2</sub>O<sub>3</sub> (80 - 90%), SiO<sub>2</sub> (5-10%), TiO<sub>2</sub> (0 -1%), FeO (0-1%), SiC (2,5-7,5%), CaO/Mg (1-2,5%%)

### SECTION 4: First aid measures

#### 4.1 Description of first aid measures

##### General notes

In all cases of doubt, or when symptoms persist, seek medical advice.

##### Following inhalation

In case of accident by inhalation: remove casualty to fresh air and keep at rest. In case of respiratory tract irritation, consult a physician.

##### Following skin contact

Rinse skin with water/shower. Do not rub affected area. Take off contaminated clothing. If skin irritation or rash occurs: get medical advice/attention.

##### Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart. Do not rub affected area.

##### Following ingestion

Rinse mouth with water (only if the person is conscious).

#### 4.2 Most important symptoms and effects, both acute and delayed

pulmonary irritation, localised redness, pruritis, cough

#### 4.3 Indication of any immediate medical attention and special treatment needed

none

### SECTION 5: Firefighting measures

#### 5.1 Extinguishing media

##### Suitable extinguishing media

The product itself does not burn. Combustible: Packaging materials

#### 5.2 Special hazards arising from the substance or mixture

none

#### 5.3 Advice for firefighters

Co-ordinate firefighting measures to the fire surroundings.

##### Special protective equipment for firefighters

Filtering half mask (EN 149), P3 (filters at least 99,95 % of airborne particles, colour code: White)

## Crushed Grinding wheels SSB

Version number: GHS 1.0

Date of compilation: 2014.11.15

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

##### For non-emergency personnel

Prevent skin contact. Control of dust. Do not breathe dust.

##### For emergency responders

In case of spillage - Wear respiratory protection: Half mask with particle filters P2 (filters at least 94 % of air-borne particles, colour code: White)

Dampen dust and place it in a properly closed receptacle and dispose it safely.

#### 6.2 Environmental precautions

Knock down dust with water spray.

#### 6.3 Methods and material for containment and cleaning up

Take up mechanically (control of dust, dampen dust). Other information relating to spills and releases: Special danger of slipping by leaking/spilling product. Ventilate affected area (Particulates and dust). No dry sweeping using a broom. Do not blow off dust deposits.

##### Reference to other sections

Personal protective equipment: see section 8.

Disposal considerations: see section 13.

### SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Don't use a brush or compressed air for cleaning surfaces or clothing. Avoid the release and swirling up of dust.

##### Measures to protect the environment

Completely emptied packages can be recycled.

##### Advice on general occupational hygiene

Wash hands after use. Do not to eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas.

#### 7.2 Conditions for safe storage, including any incompatibilities

When not in use, keep containers tightly closed. Store in a dry place. Removal of dust deposits (control of dust).

### SECTION 8: Exposure controls/personal protection

#### 8.1 Control parameters

##### National limit values

##### Occupational exposure limit values (Workplace Exposure Limits)

##### Dusts, particles

## Crushed Grinding wheels SSB

Version number: GHS 1.0

Date of compilation: 2014.11.15

### 8.2 Exposure controls

#### Appropriate engineering controls

Don't use a brush or compressed air for cleaning surfaces or clothing. Regular cleaning of work area. Use a vacuum cleaner fitted with an HEPA (High-Efficiency Particulate Air) filter.

#### Individual protection measures (personal protective equipment)

##### Eye/face protection

Use safety goggle with side protection.

##### Skin protection

###### • hand protection

Wear protective gloves

###### • type of material

reinforced coating: nitrile, NR: natural rubber, latex

###### • other protection measures

Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling. Wear suitable working clothes.

##### Respiratory protection

Use respiratory protection for dust-intensive work: Filtering half mask (EN 149).

##### Environmental exposure controls

Control of dust. Use of compressed air to clean clothes prohibited.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

Physical state:	solid (angular)
Colour:	different
Odour:	characteristic

#### Other physical and chemical parameters

pH (value):	not applicable
Melting point:	ca. 2,000 °C
Initial boiling point and boiling range:	not applicable
Flash point:	not applicable
Evaporation rate:	not applicable
Flammability (solid, gas):	not applicable
Vapour pressure:	not applicable
Density:	3.9 g/cm <sup>3</sup>
Bulk density:	1.5 - 1.8 g/cm <sup>3</sup>

## Crushed Grinding wheels SSB

Version number: GHS 1.0

Date of compilation: 2014.11.15

Solubility(ies)

- water solubility:

insoluble

Partition coefficient

not applicable

Viscosity

not relevant (solid matter)

Explosive properties:

none

Oxidising properties:

none

### 9.2 Other information

none

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

This material is not reactive under normal ambient conditions.

### 10.2 Chemical stability

See below "Conditions to avoid".

### 10.3 Possibility of hazardous reactions

No known hazardous reactions.

### 10.4 Conditions to avoid

There are no specific conditions known which have to be avoided.

### 10.5 Incompatible materials

There is no additional information.

#### Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

#### Classification according to GHS (1272/2008/EC, CLP)

This mixture does not meet the criteria for classification in accordance with Regulation No 1272/2008/EC.

#### Acute toxicity

Shall not be classified as acutely toxic.

#### Skin corrosion/irritation

Shall not be classified as corrosive/irritant to skin.

#### Respiratory or skin sensitisation

Shall not be classified as a respiratory or skin sensitiser.

#### Specific target organ toxicity (STOT)

Shall not be classified as a specific target organ toxicant.

## Crushed Grinding wheels SSB

Version number: GHS 1.0

Date of compilation: 2014.11.15

### Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

## SECTION 12: Ecological information

### 12.1 Toxicity

#### Aquatic toxicity (acute)

Shall not be classified as hazardous to the aquatic environment (acc. to 1272/2008/EC).

### 12.2 Process of degradability

Data are not available.

### 12.3 Bioaccumulative potential

Data are not available.

### 12.4 Mobility in soil

Data are not available.

### 12.5 Results of PBT and vPvB assessment

Data are not available.

### 12.6 Other adverse effects

Data are not available.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

#### Waste treatment-relevant information

Possibility of reuse or recycling.

#### Waste treatment of containers/packagings

Completely emptied packages can be recycled.

#### Relevant provisions relating to waste

Non-hazardous waste in accordance with Article 3 (2) in conjunction with Annex III of Directive 2008/98/EC. Please consider the relevant national or regional provisions.

Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

## SECTION 14: Transport information

14.1	UN number	not relevant (not subject to transport regulations)
14.2	UN proper shipping name	not relevant
14.3	Transport hazard class(es) Class	-
14.4	Packing group	not relevant
14.5	Environmental hazards	none (non-environmentally hazardous acc. to the dangerous goods regulations)

## Crushed Grinding wheels SSB

Version number: GHS 1.0

Date of compilation: 2014.11.15

### 14.6 Special precautions for user

There is no additional information.

### 14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

The cargo is not intended to be carried in bulk.

## SECTION 15: Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Industry or sector specific available guidance(s)

European Network on Silica (NEPSI)  
"10 Golden Rules to suppress dust"

#### National regulations

see section 8 for Occupational Exposure Limits (OELs)

#### • Recommendations

Health and Safety Executive (HSE): Control of exposure to silica dust  
Health and Safety Executive (HSE): Respiratory protective equipment at work (practical guide HSG53)

### 15.2 Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

## SECTION 16: Other information

### Abbreviations and acronyms

Abbr.	Descriptions of used abbreviations
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures
DPD	Dangerous Preparations Directive (1999/45/EC)
GHS	"Globally Harmonized System of Classification and Labelling of Chemicals" developed by the United Nations
MARPOL	International Convention for the Prevention of Pollution from Ships (abbr. of "Marine Pollutant")
PBT	Persistent, Bioaccumulative and Toxic
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
vPvB	very Persistent and very Bioaccumulative

### Key literature references and sources for data

- Regulation (EC) No. 1907/2006 (REACH), amended by 453/2010/EU
- Regulation (EC) No. 1272/2008 (CLP, EU GHS)

### Classification procedure

Physical and chemical properties: The classification is based on tested mixture.

Health hazards/Environmental hazards: The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

# Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH)

## Crushed Grinding wheels SSB

Version number: GHS 1.0

Date of compilation: 2014.11.15
