

ULTRA RACE CIRCUIT COATINGS

SWARCO Ultra Race Circuit coatings represent the absolute finest in highly durable, fade resistant coatings designed specifically for race tracks. These products offer outstanding adhesion, moisture resistance, and durability while providing bright, vivid lines required in numerous racing circuits. Ideal for continuous lines, starting grids, checkered patterns, and stencils.

FEATURES INCLUDE

- Excellent adhesion to concrete and asphalt surfaces
- Engineered with advanced waterborne self-crosslinking acrylic resin technology
- Available in bright, fade-resistant colors
- Environmentally friendly waterborne paint for application on curbs and as delineation along road racing circuits
- Remains flexible over time
- Fast drying under a wide range of climatic conditions

PRODUCT LINE

- **URC-100 Series** – Ultra Race Circuit Coatings are 100% acrylic cross-linking high-build waterborne coatings. They feature fast dry, superior durability and maximum film build.
- **F1-200 Series** – F1-200 Series is a proprietary waterborne paint formulation that is recognized internationally as a premium coating designed specifically for racetracks.
