online training subscription

Staff training plays a critical role in the effective and efficient operation of your SKIDATA parking system

Fully trained knowledgeable staff can truly make all the difference to the success of your business.

To ensure we deliver the most suitable and flexible training sessions to our customers we are now offering online training available in a pre-purchased subscription.

Benefits

Shorter Sessions

Sessions are reduced to two-hour blocks to allow for more flexibility

Focused Learning

Sessions are constructed on small focused topics instead of broader curriculums

Combined Curriculums

Full curriculums can be built from smaller sessions purchased as a block

SUBSCRIBE

Subscription Service

Online time can be purchased as part of a service agreement and delivered when required throughout the year at a reduced cost

Control Centre Operator

A streamlined version of our Classroom CCO Training focusing on skills of control centre functions to allow easy live management of the car park.

Contract Parker & Validation Management

Learn how to set up and manage your contract parkers and learn how best to set up and use all the validation products and options within Parking.Logic

Reporting

Understand how to locate, assess and analyse your data. Understand how to track operational events and monitor your car park

Build Your Own Course

Select from our menu of topics and build your own two-hour session by combining topics from below.

Free Form Consultancy

A free-form online session to allow you to ask any questions of our certified trainers on how to manage your Parking.Logic System
